

## Interview Consent Form

*The Humanities Core program at UC Irvine offers students an introduction to several areas of study that represent “the humanities” while teaching them writing skills in various genres. As part of a unit on oral history, students conduct an interview that they incorporate into a story, written in the genre of literary journalism. This writing is sometimes the most powerful prose students produce during their year-long study. With your permission, we would like to feature student writing based upon your interview on our course website, share this writing in academic publications, or preserve it in our course and library collections. We wish to give voice to the experiences of persons in our community. We are grateful to you for agreeing to this interview and ask that you complete the following form.*
